What is a target market determination?

A Target Market Determination (TMD) is a determination that AIG has made that sets out:

- the class of customers that comprise AIG's target market for this Product, taking into consideration their likely needs, objectives and financial situation;
- any conditions and restrictions placed on retail product distribution conduct in relation to the Product;
- the events and circumstances that would reasonably suggest that the TMD is no longer appropriate;
- the review periods for the TMD; and
- the reporting obligations for the TMD.

This TMD does not provide any financial product advice on the Product and does not take into consideration the needs, objectives and financial situation of individual customers.

The terms and conditions of the Product are set out in the Product Disclosure Statement (PDS). Insurance products and services are provided by AIG Australia Limited ABN 93 004 727 753 AFSL 381686. This TMD does not form part of the insurance contract and is not a summary of the Product's terms and conditions. Customers should review the PDS before making any decision on whether to purchase this Product.

AIG will make this TMD available to any person, upon request, free of charge.

Terms used in this TMD, which are defined in the *Corporations Act*, have the same meaning as under that legislation.

Application of this TMD

This TMD applies to customers who acquire the Product as retail clients namely sole traders and small businesses (a business which employs less than 100 people, if a manufacturing business, or otherwise 20 people or less).

It does not apply to other customers (wholesale clients) who may purchase the Product.

The Product is distributed (purchased) via:

The broker ensures that all authorised representatives it deals with in relation to the Product:

- specialise in providing insurance to the industry;
