Our Commitment to Supporting your Mission

Your Not-for-Profit (NFP) plays a vital role in the community, but challenges can arise that threaten your ability to serve. Our tailored insurance solutions provide the protection you need—so you can continue making an impact with confidence.

With a deep understanding of the risks NFPs face, we ensure you remain protected against unforeseen disruptions.

We work alongside insurers who specialise in NFPs, including charities, to create solutions that safeguard your organisation. We've been doing this for over 30 years, and hope to partner with your organisation too.

Our Expertise in Supporting Your Mission

Your mission is making a difference—supporting communities, changing lives, and delivering essential services. But unexpected risks can disrupt the vital work you do. That's why the right protection is essential.

At ACS Financial, your organisation's security is our priority. With insurance solutions designed specifically for NFPs, we help protect your staff, volunteers, and visitors—so you can focus on what truly matters.

We understand the unique challenges you face. That's why we work closely with you to provide tailored, long-term protection, ensuring your organisation continues making a positive impact—without interruption.

Through partnerships with insurers specialising in NFPs and charities, we offer solutions that protect every aspect of your organisation in the following four key areas.

People – Ensuring your staff, volunteers, and leadership team are protected.

Purpose – Keeping your mission secure, no matter what challenges arise.

Property – Safeguarding your buildings, equipment, and essential resources.

Protection – Covering risks unique to the NFP sector, from liability to compliance.

If your organisation is a registered Community Service or NFP with an annual turnover under \$10 million and a combined insured sum for Property Protection and Business Interruption under \$20 million, we can create a custom insurance programme tailored to your needs.

Your work is too important to leave unprotected. Let's ensure your mission continues—secure and uninterrupted.
